

**PRESS RELEASE  
FOR IMMEDIATE RELEASE**

**Telecorp Announces New Letter of Intent for ByteXit**

**Cheyenne, Wyoming May 7, 2010**– **Telecorp, Inc.**, a leading developer of state of the art CRM and Client Contact software solutions; announced today that it has delivered a Letter of Intent to purchase from **Codererum** of Finland, the software system called **ByteXit** which they have developed.

ByteXit (BX) is a server side software platform developed for companies and service providers to securely master data management, data access, data sharing and data storage over the Internet.

BX includes extensive tools for companies and/or service providers to provide users and customers secure user-defined and controlled access to corporate database and to perform various actions. The administrator of the company is equipped with comprehensive set of powerful and easy-to-use admin-tools to manage the system and users.

“Telecorp is very proud to have work towards securing this system for the past 18 months, as it will add a measured value in Telecorp’s corporate game plan” Stated Paul Phillips President and CEO of Telecorp Inc. “Meaning this storage, containment and communication system will work well with Telecorp’s core group of products and more importantly with the new acquisitions that Telecorp is close to completing.”

Some of the features that ByteXit will offer include;

- Procurement planning tools
- Photo gallery
- Copy order module
- Document approval process
- Calendar + tasks
- New files view
- External links to public files
- Email notification of new / updated files
- File commenting

Telecorp is anticipating completion of deal by May/June 2010.
