FOR IMMEDIATE RELEASE**

Telecorp Announces Completion of Purchase of Euphorik Fuel Technologies

Cheyenne, Wyoming April 5, 2010– Telecorp, Inc., a leading developer of state of the art CRM and Client Contact software solutions; announced today that it has completed all aspects of the acquisition and purchase of Euphorik Fuel Technologies.

The purchase includes the complete ownership of software code which was owned entirely by Euphorik Fuel's major shareholder Madelene Easton and all assets of Euphorik Fuel.

"It's the code that is the major asset of Euphorik Fuel and what we believe will expedite and enhance our code development in coming months." said CEO Paul Phillips of Telecorp "We believe that it will ameliorate our development operations in India, greatly reducing core development time and get us to market faster while bringing key innovations and features to the final software design solution."

Telecorp has had a full development team in India since January 2010 working on the Telephony aspects of the overall software architecture and engineering. Euphorik Fuel's business model is the marketing of stand-alone communication software which does not fall in Telecorp's long term strategies of SaaS. The company is evaluating Euphorik's long term opportunities.

The transaction is strictly "shares for assets" and includes no debt or expenses. The delivery of 600,000 shares for the code and 300,000 shares for business for a total of 900,000 shares was completed as of today.
