

PRESS RELEASE FOR IMMEDIATE RELEASE

Telecorp Introduces; Software Development Partnership

Cheyenne, Wyoming January 15, 2008– Telecorp, Inc., a leading developer of state of the art CRM and Client Contact software solutions; announced today, that they have a agreement in place to use the services of Gateway TechnoLabs Pvt. Ltd to assist and expedite their core infrastructure of Telecorp's Telephony System. With this agreement, Telecorp will be able reach key timelines and deliver it's suite of products on a scheduled release by the end of summer of 2009.

Gateway TechnoLabs is a company of 800+ IT professionals with over 100 people team in 7 countries globally and been in business for 11 years and have participated in success of client's like Telecorp in over 27 countries.

"This is an exciting time for us, as we have taken another bold step to bring total communication to all our products for what we anticipate to be one of the most powerful messaging system in the world today.", said Paul Phillips, President Telecorp, Inc. "With Gateway TechnoLabs added, we now can deliver all products with more features by September 2009."

Telecorp will direct and employ a team of five (5) high level telephony expert developers for a contract of 6 months beginning February 2, 2009. This team will work hand and hand with Telecorp's growing workforce in Panama in which within the 6 month period our Panamanian team will be a level of staff and expertise to continuing growing our suite of products.

"We are very excited with what Telecorp has to offer and see their products lines to be what we consider the best in the industry by years end" said Vipul Shah Manager-Global Software Sales of Gateway TechnoLabs. "We are certain that with our skill set and proven success we can meet and exceed the challenge and deliver on time and on budget and continue to partner with Telecorp for years to come"

Telecorp is at present time working with Gateway to complete the Technical documentation so development will begin on or before February 2, 2009.
